

eltered from another hurricane, Ian.

Before these weather setbacks, two launch attempts had to be canceled for technical reasons. The first failure was related to a faulty sensor, and the second to a fuel leak when filling the rocket's tanks. It runs on ultra-cold, ultra-volatile liquid oxygen and hydrogen.

NASA has since replaced a seal and modified its procedures to avoid thermal shock as much as possible.

Tank-filling is now due to begin Tuesday afternoon. About 100,000 people are expected on the coast to watch the launch, with the rocket promising to light up the night sky.

The Orion capsule will be lifted by two boosters and four powerful engines under the core stage, which

meters) beyond the far side -- further than any other habitable spacecraft so far.

Finally, Orion will embark on the return leg of its journey. When passing through the atmosphere, the capsule's heat shield will need to withstand a temperature half as hot as the Sun's surface.

If takeoff happens Wednesday, the mission would last 25 and a half days in all, with a splash-down in the Pacific Ocean on December 11.

NASA is banking on a successful mission after developing the SLS rocket for more than a decade.

conditions refusing negotiations and putting forward what are obviously unrealistic," Lavrov. He said he had put forward that position during a meeting with French President Emmanuel

Macron and that he had explained Russia's position during talks with German Chancellor Olaf Scholz. Russian and Ukrainian officials held several rounds of negotiations during the early stages of the conflict -- including meetings hosted by Recep Tayyip Erdogan -- that ended without agreements to curb fighting. Along with the UN and Turkey, Russia and Ukraine this summer inked a deal to unblock several Ukrainian.

Billion Billion

1.412 billion in 2022, compared with China's 1.426 billion. India is projected to have a population of 1.668 billion in 2050, ahead of China's 1.317 billion people by the middle of the century. According to UNFPA estimates, 15 per cent of India's population is between 15-64 years old in 2022, while 10 per cent are 65 and older. In India, where 70 per cent of the population were seven per cent of the population. The world's population could grow to around 8.5 billion in 2030 and 9.7 billion in 2050. China is expected to experience an absolute decline in its population as early as 2023, the report had said. At the launch of the report in July, Under-Secretary-General for Economic and Social Affairs Liu Zhenmin had said that countries where population growth has slowed must prepare for an increasing.
